

**MAINE SCHOOL ADMINISTRATIVE DISTRICT NO. 33**

**TEACHER INITIATED STUDENT ACTIVITIES**

All student activities, other than classroom centered activities, initiated by teachers must be sanctioned by the Board of School Directors even though the teacher promoting, initiating, organizing, directing and/or supervising such activity is voluntarily donating their services. However, sanction by the Board of Directors to promote, initiate, organize, direct or supervise a student activity voluntarily and without pay for services rendered does not imply that such an activity will eventually become a paid activity.

The foregoing policy is not meant to discourage teacher initiative in the area of student activities. It is a clear statement by the Directors that they must be informed about the promotion or start up of any new student activities in advance, that such activities must have Board of School Directors approval before they become a reality.

Approved by the Board  
of Directors on 07/26/79  
Rev. 05-03-93
