Record keeping/accountability: The director of drama will develop and administer a plan for taking attendance to cover all rehearsals, art work, and set design. A list of these students with their accrued hours will be presented to the principal for his approval after each major production. The principal will then forward this approved document to the guidance counselor. The actual assignment of credit will be done after the total hours of all plays have been added at the end of each school year.

Note: Partial or full credit(s) obtained in this manner may only be used to fulfill or extend the fine arts requirements.
